Creating the 2020 Family Christmas Card

Our family Christmas Cards are usually simple, straight forward affairs. But for 2020, we decided to go with something a little (a lot) more involved. Taking inspiration from [this family's blog](#), we decided to break out the Photoshop and come up with a really fun Christmas card.

Playing in the Leaf Pile

Sometimes my children go outside. The optimal time for outside is play is when the temperature is hovering around 44°F. Crazy, I know, but they seem to enjoy themselves.

Updated Qt5 Cross-Compilation with Ansible/Ubuntu 18.04

Cross-compiling Qt and Qt-based projects for the Raspberry Pi continues to be an error prone, complicated process. It's even worse when doing it on CentOS because of the outdated tooling (GCC 4.8?!). To lower the friction, I updated my cross-compilation Ansible playbooks to work with an Ubuntu 18.04 desktop instead of CentOS.
