

# Projects

Personal projects that I've worked on:

- **Mojave** - a color scheme for text editors and IDEs.
- **CSV Sidecar** - automatically save a CSV file when saving an Excel file. Exciting!

## Contributions

I've also contributed to some open source projects.

- **BigBoard plugin for Kanboard** - Bigboard is a plugin that lets you see multiple kanban boards on Kanboard.
- **openpyxl** - Openpyxl is a python library for reading Excel files. I added more support for copying print settings.
- **Xfce4 Task Manager** - Easy fix to the task manager reporting the wrong value.
